Critida - Bio Cretan Olive Oil is a family company in Crete, Greece with five generations of history in the olive oil market and continues to produce olive oil with traditional methods as in the old times. This provides us with a lot of experience and knowledge in production, standardization and trade of extra virgin olive oil.

**We can't wait to meet you.**

With regards,  
For Critida - Bio Cretan Olive Oil  
IOANNIS ANDREADAKIS

## Brief information about Critida - Bio Cretan Olive Oil

Critida - Bio Cretan Olive Oil is a family company in Crete, Greece with lots of experience and knowledge in production, standardization and trade of extra virgin olive oil. The family of Critida - Bio Cretan Olive Oil has five generations of history in the olive oil market and continues to produce olive oil with traditional methods as in the old times. The use of the cold pressure method sustains the nutritional values of olive oil and gives it a unique aroma and flavor. Our company's olive oil comes from fields that belong to our family for five generations, and producers located mainly in the valley of Messara in the southern area of Crete, where the uniquely favourable climatic conditions of the region help sustain a rich floral and faunal biodiversity, while contributing to the optimal growth of the olive. Our company produces high quality products in a variety of flavors and packaging such as extra virgin olive oil with acidity up to 0.3%, organic olive oil of max 0.3% acidity, Sitia and Peza, Messara, Viannos extra virgin olive oil, which are marked as Protected Designation of Origin (P.D.O.) and olive paste. We also trade organic olive oil infused with herbs from the generous Cretan land such as oregano, thyme, rosemary and spices such as paprika, garlic and lemon & extra virgin olive oil flavoured with natural extracts such as truffle, chocolate, wasabi, chili, blood orange and basil. Our company has export activity in many countries such as Germany, France, Denmark, Bulgaria, Switzerland, Canada, U.S.A., Norway, Brazil, and UAE. All of your products are produced in modern facilities under strict supervision, according to EU regulations and have all the necessary certificates. The continuous search for new materials and our effort to maintain the quality of our products, have led the company on international markets, where it has been honored with many awards. We give high credit and have a strong commitment to the finest quality of olive oil. With respect for tradition and quality we choose the best olive fruit, thus achieving the best result. We have strong belief in this unique Cretan product and we continue our efforts to give Cretan olive oil the place it deserves in the global market.
